

T3Affinity has a variety of retro-fit shelving accessories available. All can be integrated in a display on an adhoc basis meaning that there is no need to dismantle or reconfigure a design just to

fit in shelving solutions. The shelves can be configured to a broad range of sizes giving the user the utmost flexibility when it comes to their design.

AYA4001 S / P (CODE)*SINGLE SHELF BRACKET (SINGLE/PAIR)*

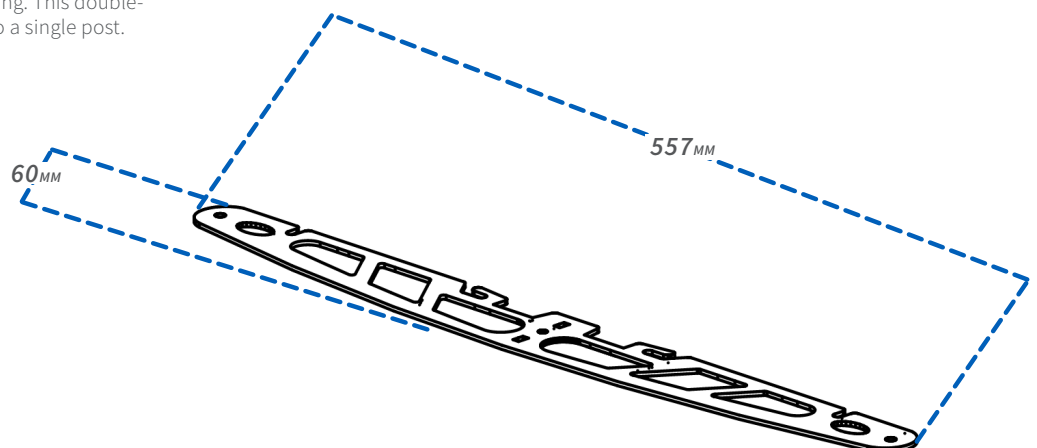

The Single shelf bracket is a multi functional shelving solution that not only allows for horizontal rails for hanging products but is equipped with inset grooves to which Rigid panels can secure to. Single Shelf brackets are sold in left and right pairs that secure to either side of the Affinity Post.

**AYA4004 (CODE)***5 SLOT BRACKET FOR BEAM (C/W T-BOLT)*

The 5 Slot bracket not only allows for quick, versatile shelving options but includes a unique curved design that includes pre set grooves to allow for clothing rails. This unique design creates a multi functioning shelving options that creates more space for retail products.

**AYA4003 S/P (CODE)***DOUBLE SHELF BRACKET*

The double shelf brackets is simply a dual moulded bracket that simply increases the potential for shelving. This double-sided version allows for easier application to a single post.
